About Me

I am a Software Engineering undergraduate passionate about creating user-friendly digital solutions and exploring modern technologies. I enjoy front-end development and continuously expanding my skills while contributing to innovative IT projects.

Work Experience

IT Intern

Ruhunu Foods (Pvt) Ltd., Sri Lanka | August, 2025 - February, 2026

Completed a six-month internship in the Information Technology Department, supporting the maintenance and implementation of Sales Force Automation (SFA) and ERP systems. Assisted with inventory management, data handling, ERP setup, documentation, and technical support while contributing to IT projects and system evaluations. Gained practical experience in enterprise systems, business processes, and collaborative problem-solving.

Education

BEng (Hons) Software Engineering (Top-Up)

London Metropolitan University, United Kingdom | September 2025 - Present

- Award Class: First Class Honours

Pearson BTEC Level 5 Higher National Diploma in Computing (Software Engineering)

ESOFT Metro Campus, Sri Lanka | September, 2023 - September, 2025

- Grade: Distinction

Skills

- Programming Languages:** Python, Java, C#, PHP, JavaScript, SQL Web Technologies: HTML, CSS, Bootstrap, AJAX, RESTful APIs
- Databases:** Microsoft SQL Server, MySQL
- UI/UX & Design:** Figma, Wireframing, Prototyping
- DevOps & Development Tools:** Git, GitHub, Visual Studio, Visual Studio Code, XAMPP, phpMyAdmin
- Software Engineering:** Object-Oriented Programming (OOP), Full-Stack Web Development, Software Architecture, Client-Server Architecture, MVC Architecture, Full Stack Development, Backend Development, Agile Development Methodologies
- Other Technical Skills:** API Integration, Database Connectivity, Requirements Analysis, Project Management, Software Development Practices
- Soft Skills:** Problem Solving, Analytical Thinking, Communication Skills, Teamwork and Collaboration, Time Management, Adaptability, Leadership Skills, Critical Thinking, Attention to Detail, Fast Learning

Academic Projects

• VimoraBot – AI-Based Psychological Counselling Web Platform

Technologies: PHP, MySQL, HTML, CSS, JavaScript, Groq API, Chart.js, AJAX, XAMPP, phpMyAdmin

- Designed and developed a full-stack AI-powered counselling web application for mental health support
- Integrated AI-driven conversational features and developed a scalable, secure, and responsive system
- Applied software engineering methodologies from requirements analysis through implementation, testing, and evaluation

• Evaluating the Impact of QuillBot's Paraphrasing Feature on Improving the Grammatical Accuracy of Academic Assignment Writing

Technologies: SPSS, Microsoft Excel, QuillBot, Google Forms, Microsoft Word

- Conducted quantitative research to evaluate the impact of AI-assisted paraphrasing on academic writing.
- Analyzed survey data using SPSS to identify improvements in grammatical accuracy.
- Proposed a conceptual framework for effective use of AI writing tools in higher education.

• GreenLife Organic Store Management System

Technologies: C#, .NET Framework, Windows Forms, SQL Server, Visual Studio

- Developed a desktop-based retail management system with Admin and Customer modules.
- Implemented product, order, inventory, and customer management with SQL Server integration.
- Built secure login, reporting dashboard, product search, and order tracking features.

• IslandLink Sales Distribution Network (ISDN)

Technologies: SQL Server, HTML, CSS, JavaScript, Bootstrap, XAMPP, PHP

- Developed a centralized sales distribution management system with role-based access control.
- Implemented logistics, route management, delivery tracking, inventory monitoring, and reporting modules.
- Integrated SQL Server database with real-time inventory updates, dashboard reporting, and secure authentication.

Certification

- Python for Beginners – University of Moratuwa
- Fundamentals of Database: What is SQL? – Simplilearn SkillUp
- Project Management 101 – Simplilearn SkillUp

Languages

- **Sinhala** | Native Proficiency
- **English** | Working Proficiency
